Yale® smart Living

Indoor WiFi Cameras.

Yale indoor cameras are on hand to let you know exactly what's happening at home, even when you're away, so you never have to miss a moment. Check in to see who's arrived home first and keep an eye on furry friends - you can even say hello via the two-way audio. All this and no monthly fees.

In App Control
Set up and control your Indoor WiFi camera via the Yale View app.

Live View
Take snapshots and record short videos of the live feed within the app and store to your phone (no SD card required)

Two-way Talk
With two-way talk you can talk to those at home when you are away.

No Monthly Fee
Access live viewing, two way audio and motion alerts with no monthly fees.

Night Vision
8m night vision activates automatically in the dark, giving you full visability around the clock.

Motion Detection
With motion detection alerts you will always be in the know when something has happened. Add an SD card to your camera to capture motion detect events or link to a Yale Smart CCTV DVR for constant back up recording of all activity.

Easy Set up
Wire free for quick and easy installation

Image Masking
Ensure you only get alerted when a visitor enters a specific area in front of your camera.

Ask Alexa 'Show me the kids room' to see and hear live feed from your camera on Alexa screen enabled devices*

Compatible Amazon Devices: Echo Show and Echo Spot, All generations of Fire TV, 2nd generation Fire TV Stick, Fire Tablets (7th generation and later)

The smarter way to protect your home.
